PROFILE

Highly motivated and adaptable professional with a solid background in Computer Science. Strong creative design thinking and analytical skills. I'm a web and mobile app development enthusiast with a passion for creating dynamic and engaging websites and mobile apps, through my journey in web development.

I've gained proficiency in HTML, CSS, JavaScript, React, React Native, Node JS, Express JS and MongoDB. These skills, combined with my determination and enthusiasm, have motivated me to expand my expertise and explore the full potential of web and mobile app development.

PROJECTS

1. ONLINE GROCERIES STORE - MOBILE APP

I developed a mobile application the creation of a cutting-edge shopping experience using React Native. I ensured the app's compatibility across both iOS and Android platforms, providing a consistent and responsive user experience.

2. MY OWN PORTFOLIO

I created a portfolio app that showcases my personal and professional achievements, skills, and projects. The app uses Tailwind with React.

3. SOCIAL MEDIA POST APP - CHATAPP CLONE

I developed a web application that allows users to create, edit, and delete social media posts. The app uses React and Local database that provides features such as filtering, and searching.

4. TO DO LIST APP - CRUD OPERATION

I developed a to do list app that allows users to create, read, update, and delete tasks. The app uses React and local database to store the tasks & their status, and also provides features such as filtering, and searching. Also, I created this app with React.
